

How Can My Business Participate?

Bring your hazardous waste to the Citizen Disposal Facility from 9:00 a.m. to 2:00 p.m. on a CESQG Clean-Up Day. We are not able to accept waste on days other than the scheduled clean-up days.

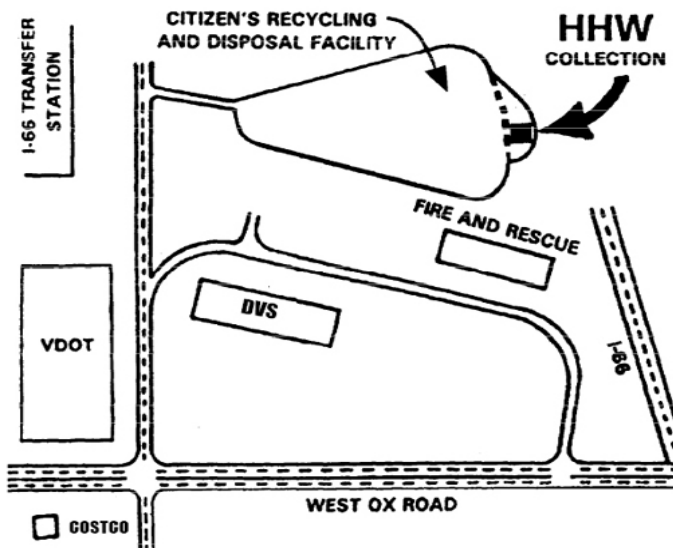

When you arrive, we will determine if you qualify for the program based on the types and amounts of waste you generate.

- You must show proof that your business is located in Fairfax County (including cities or towns located within the county) by providing a copy of your Business, Personal Property, State, or County License.
- A waiver must be signed certifying that your business is in Fairfax County and that it generates less than 100 kilograms (220.46 lbs.) of hazardous waste per month.

Waste must be in containers that are five gallons or smaller. All containers must be labeled for identification. Make sure your waste is in containers with lids.

This document is available in an alternative format upon request. Please call the Fairfax County Solid Waste Management Program at 703-324-5230, TTY 711. Please allow seven working days for preparation of material.

Household Hazardous Waste Site I-66 Transfer Station Complex 4618 West Ox Road Fairfax, Virginia

FAIRFAX COUNTY BUSINESS HAZARDOUS WASTE CLEAN-UP DAYS

A Fairfax County, Va., publication

For Conditionally Exempt Small Quantity Generators (CESQG)

**OPEN TO ALL
FAIRFAX COUNTY BUSINESSES**
(Including businesses located in cities and towns within Fairfax County)

2007 Clean-up Dates

Wednesday, April 11

Wednesday, July 25

Wednesday, October 3

All Clean-Up Days will be held from
9:00 a.m. to 2:00 p.m. at the
Citizen's Disposal Facility Household
Hazardous Waste Disposal site.

Who can use this service?

Any small business in Fairfax County (including businesses in cities and towns within Fairfax County) that qualifies as a CESQG may participate in one of the three clean up days scheduled for 2007 at the Citizen's Disposal Facility Hazardous Waste Disposal Site located at 4618 West Ox Road, Fairfax.

Where can I get more information?

You may contact the Fairfax County Solid Waste Management Program by calling 703-324-5230, TTY 711, or by visiting our website at:

www.fairfaxcounty.gov/living/recycling.

What is a CESQG?

Businesses that generate less than 100 kilograms (220.46 lbs. or 27 gallons) of hazardous waste per calendar month are called "Conditionally Exempt Small Quantity Generators" or CESQGs. Businesses can also qualify as CESQGs if they produce less than one kilogram (2.2 lbs. or 1/4 of a gallon) of acutely hazardous waste per calendar month. The most common CESQGs in Fairfax County are print shops, auto repair shops, household painting businesses, building contractors, manufacturing firms, landscape contractors and nurseries, property management companies, funeral homes, and exterminators.

What is the Fairfax County CESQG Program?

CESQGs often have difficulty with disposing of small quantities of hazardous waste. Hazardous waste companies usually have a minimum amount of waste they will pick up or charge a minimum fee for service. Typically, the minimum fee exceeds the cost of disposal for hazardous waste. This leaves the small quantity generator in a difficult situation. The Fairfax County CESQG Program Clean-Up Day provides businesses with an economical way to manage small quantities of hazardous waste. Our charges are based on the amount of material to be disposed of and include all consolidating, packaging, manifest paperwork, and shipping preparations. Payment is due upon arrival. Visa, MasterCard, checks or cash are accepted. Make checks payable to Director of Finance, Fairfax County.

PRICE LIST FOR CESQG

Prices will be rounded off to the nearest gallon. For example, 1/2 gallons of material will be charged as if it were one gallon of material.
